

Medication Review Screening Tool

(Answer Yes or No)

Do you need help to obtain or take your medication?	
Do you have any side effects that you believe are caused by your medication?	
Any "Yes" answer to the above indicates a need for a medication review	
Do you understand what your medicines are for?	
Do you find it easy to take your medicines?	
Do you always remember to take your medicines?	
Do you always take all your medicines the way the doctor wants you to?	
Are you always able to order all your medications at the same time?	
Is your prescribed medication the only medication you regularly take?	
Do you understand when to take your medicines?	
Do you think your medication is working effectively for you?	
Are your medicines easy to open and easy to use?	
Any "No" answer to the above indicates the need for a medication review	

Medication review appointments can be booked with the clinical pharmacist
